(\$2.99)We know, Photoshopping an iPhone pic just so you can post it on Instagram is a bit much. But FaceTune offers an impressive suite of editing tools—no computer necessary. You can smooth complexions, make zits disappear, correct red eye, and brighten teeth so fast, it's hardly high-maintenance. Available for iPhone, Android, and Windows Phone (Free) According to an allure.com poll, 38 percent of women have too many products to count in their makeup bag. Enter this app, which keeps track of not only your mascaras, lipsticks, and bronzers, but all of your skin- and hair-care products, too. It stores info, like when you bought an item and how full it is, then anticipates when you're running low. It sends you a reminder to refill, and when it's time, you can purchase a replacement within the app through retailers including Soap.com, Sephora, Saks, and Walmart. And if that wasn't enough, the app pulls in coverage from more than 30 magazines and blogs—allure.com included—so you never have to miss a new product review. Available for iPhone (\$2.99) This app is the ticket for beauty addicts shopping on a budget, pairing splurge-worthy products with cheaper drugstore versions. It's not perfect (the search function is pretty bare-bones, so we prefer to scroll through the app's individual category lists), but it puts inexpensive product recommendations for hair, makeup, skin, nails, and tools all in one place. Available for iPhone (Free) Ever wonder what you'd look like as a blonde? Modiface has the answer. Unlike some try-it-on apps, this one doesn't just drop a lame overlay of a preconfigured hairstyle on top of your photo: it actually changes the hair color in the image that you import. It's easy, too: Just upload a selfie, trace your hairstyle with your finger (so the app knows where to apply your chosen shade), and pick from one of the 30 blonde, brown, and red hair-color options. Download the premium version to unlock 20 more shades. Available for iPhone, Android, and Windows Phone
